Notice for launch of one year diploma course in advanced woodworking

Diploma in Advanced Woodworking

Coming to learn at the Advanced Woodworking Training Center at Institute of Wood Science and Technology, Bangalore means coming to one of the largest and most advanced learning workshops in India. The woodworking center houses the latest manufacturing technology available to give you the hands-on experience needed to join today's industries.

About the Program

This unique advanced diploma program is delivered at one of the most advanced woodworking training facilities in India. The course is designed and delivered in joint partnership with BIESSE Manufacturing Pvt Ltd, Bengaluru. During the program, students are provided with theoretical and practical training related to the technology and skills involved in the efficient and quality-conscious manufacture of furniture, cabinets and architectural millwork. The program affords students the opportunity to relate in-school training with real industrial experience. The program also focuses on work measurement, plant layout/support systems, materials handling, quality control, cost estimating, manufacturing management techniques, computer integrated manufacturing concepts, computer-aided drafting and Numerical Control program processing.
