

**INSTITUTE OF WOOD SCIENCE AND
TECHNOLOGY, BENGALURU**

WOOD IS GOOD

Grow More, Use More

**Launching the all new quarterly publication
to curate, voice & share wood based
technologies, success stories,
industry perspective &
emerging trends.**

BELIEVING IN SUSTAINABILITY AND INNOVATION

Established in the year 1938, IWST has been continuously striving to study the adoption of emerging technologies and rational utilisation of wood and wood based materials.

Wood is good

GROW MORE, USE MORE

IWST conducts research and testing on wood and wood based products to increase its **usability** and **sustainability**. The Institute serves as an intellectual partner to the industries and is continuously working towards technological advancements in wood science.

Wood is Good is a platform for researchers, wood scientists, wood technologists, industry professionals, consumers and other stakeholders to express their perspectives.

Call for partnerships!

Organisations, federations or associations connected with wood or related activities are invited to collaborate, contribute and grow together.
